

Informed Consent for Youth Go Programming During COVID-19

This document contains important information about our decision (Youth Go & your child/ren) to resume in-person services in light of the COVID-19 public health crisis. Please read this carefully and let us know if you have any questions. When you sign this document, it will be an official agreement between us.

Risks of Opting for In-Person Services

You understand that by allowing your child/ren to participate with Youth Go's in person programming, you are assuming the risk of exposure to the coronavirus (or other public health risk). This risk may increase if your child travels by public transportation, cab, or ridesharing service.

Your Responsibility to Minimize Your Child/ren's Exposure

To obtain services in person, you agree to take certain precautions which will help keep everyone (your child/ren, your family, Youth Go Staff members, our families, and other youth participants and their families) safer from exposure, sickness and possible death. If you do not adhere to these safeguards, it may result in your child not being able to participate in face-to-face programming provided by Youth Go.

- You will only allow your child to participate in Youth Go programming if they are symptom free.
- We will take your child's temperature as they enter our building. If it is elevated (100 Fahrenheit or more), or if they have other symptoms of the coronavirus, Youth Go staff will ask your child to return to your vehicle, and not return until they are symptom free for 72 hours.
- Youth will wash their hands or use alcohol-based hand sanitizer when they enter the building (provided).
- Youth will be provided a disposable or personal cloth face mask that they can wear while they are participating in activities within our center. Youth may remove them while outside and participating in physical activity. Youth Go staff will wash and reissue the same cloth mask to each participant every time they attend our programming.
- Youth will work diligently to keep a distance of 6 feet when possible from other youth and staff, and refrain from all physical contact (e.g. no shaking hands, hugs, etc.)
- Youth will try not to touch their face or eyes with their hands. If they do, youth will be directed to wash or sanitize their hands.
- If a resident of your home tests positive for the virus, you will immediately let Youth Go know and we will then discuss how we can support your child/ren until all residents are 72 hours symptom free.

Youth Go may change the above precautions if additional local, state or federal orders or guidelines are published. If that happens, Youth Go will contact families, as well as post on all of our social media outlets.

Your signature below shows that you agree to these terms and conditions, and give permission for your child/ren to participate in Youth Go's programming.
